The following is an examiner's statement of reasons for allowance:

The claims require intermittently stopping of the mechanical abrasion process while the delivery of the chemical polishing slurry remains continuous. The prior art of record (Sahota) fails to teach or suggest this because it does not appreciate intermittently stopping of the mechanical abrasion process. Instead the mechanical abrasion of remains continuous until the wafer is removed. Although the reference appreciates a decrease in the delivery of the chemical polishing slurry, the reference does not appreciate continuous delivery of the chemical polishing slurry while intermittently stopping the mechanical abrasion process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
